c. Ad Hoc #38 - Collapsible Lens Barrel

A preliminary design drawing was reviewed. The thin aluminum sections would fit together in bayonet fashion. A screw-driven focusing device for fine adjustment of the tube length may be incorporated.

Camera adapters were still in question, and no measurements of flange to focal plane of camera bodies had been made.

5. CONCLUSIONS:

a. Satisfactory progress is being made in all cases.

6. RECOMMENDATIONS:

a. A trip be planned in the near future for [redacted] of TSS/PSD to review the [redacted] and the designs of the [redacted] collapsible lens barrel.

b. [redacted] request for additional time and money under HD-84, Task VI, be reviewed; and, if satisfactory, granted.
